Re: June 14, 1991 RCRA Inspection Violation Notice
(40 CFR 262.11)

Dear Ms. McCleod:

Attached are the EPA and State of Missouri hazardous waste permit numbers which have been assigned to Jesco Resources, Inc.

Also attached are General Testing Laboratories' test reports on the four streams which were sampled in conjunction with the June 14 inspection.

Nine drums of waste were manifested and picked up by Reidel, Solvent Recovery Corporation, Kansas City, Missouri. The quarterly report for the quarter ending September 30, 1991 has been filled out and mailed to Missouri DNR Hazardous Waste Program.

Our program will continue as necessary. I would appreciate receiving a copy of the EPA RCRA Inspection of Jesco Resources, Inc. on the above date for our files.

Sincerely,

Sal A. Fasone
